Policy Statement

Human trafficking and slavery are crimes under UK and international law. These crimes exist in countries throughout the world. This policy statement defines the Group's commitment to ensuring that human trafficking and slavery does not exist within its own businesses, but also provides how the Group will make efforts to eradicate the same from other businesses with whom it shall maintain a relationship (and especially from within its supply chain).

Members of the Executive Board, Finance, Human Resources, SHEQ and Procurement teams will take appropriate steps to ensure the Group's compliance but also that these requirements are followed by its suppliers, subcontractors and/or business partners. The Group expects all Managers and employees to support the principles contained in this policy.

All Suppliers and clients are expected to demonstrate awareness and safeguarding practice in relation to the following:

Human Trafficking: the recruitment, transportation, transfer, harboring, or receipt of persons, by means of the threat or use of force or other forms of coercion, of abduction, of fraud, of deception, of the abuse of power or of a position of vulnerability or of the giving or receiving of payments or benefits to achieve the consent of a person having control over another person for the purpose of exploitation.

Forced Labour: all work or service, not voluntarily performed, that is obtained from an individual under the threat of force or penalty.

Harmful Child Labour: consists of the employment of children that is economically exploitative, or is likely to be hazardous to, or interfere with, the child's education, or to be harmful to the child's health, or physical, mental, spiritual, moral, or social development.

Requirements for Suppliers:

- Will not use forced or compulsory labour, i.e., any work or service that a worker performs involuntarily, under threat of penalty.
- Will ensure that the overall terms of employment are voluntary
- Will comply with the minimum age requirements prescribed by applicable laws
- Will compensate its workers with wages and benefits that meet or exceed the legally required minimum and will comply with overtime pay requirements.
- Will abide by applicable law concerning the maximum hours of daily labour.
- Will not engage in any practice of slavery, servitude, forced labour, compulsory labour and/or human trafficking outside the UK which would constitute an offence if that conducted took place within the UK; and
- Will ensure that any sub-contractors or suppliers from whom they source goods and/or services for incorporation in those supplied to the Group, also adhere to these requirements.

Certification

Suppliers will certify compliance with this Policy and their adherence to relevant human trafficking and slavery laws in each of the relevant countries in which they operate.

Audits

Upon request, Suppliers must be able to demonstrate compliance with this Policy to the reasonable satisfaction of the Group. The Group may perform periodic audits on this Policy and Suppliers are expected to fully co-operate with any such audit.

Reporting

Any breach of this Policy (including by a Supplier) can be reported (in confidence, if required) through our whistleblowing procedure or by contacting the Human Resources Department.

Consequences

Any breach of this Policy is extremely serious. Suppliers who are found to have or be engaging in human trafficking and slavery or who refuse to co-operate with any audit to verify compliance with this Policy will be liable to have any supply agreement, arrangement or other contract terminated immediately, without compensation.

If a Supplier is found in violation of this policy, the Group will take prompt action which may include terminating any supply agreement, arrangement, or other contract with that Supplier. It shall also take such other steps as necessary to address the violation and seek to prevent any recurrence.
